Bachelor of Science in

Cybersecurity and Christian Ethics

INITIATORS
CHRISTIAN UNIVERSITY

In Association with

About the Degree

Dive into our Master of Science program, uniquely blending cybersecurity expertise with Christian ethics. Start with building a solid foundation in the essentials of business cybersecurity, followed by an in-depth exploration of cloud security, a critical skill in today's digital landscape. Integrate this technical knowledge with Christian ethics, adding a moral dimension to your cybersecurity skills. The program advances to the development and implementation of effective cybersecurity strategies and policies.

You will equip yourself with the ability to respond to and recover from cybersecurity incidents, a necessary skill in the digital age.

Discover the Ethical Edge in Cybersecurity Excellence!

Tracks and Modules

Track 1

Module 1.1
Introduction to Cybersecurity

Module 1.2
Personal Cybersecurity Mastery for Online Safety

Module 1.3
Christian Ethics in the Digital Age

Track 2

Module 2.1
Fundamentals of Network Security

Module 2.2
Fundamentals of Mobile Security

Module 2.3
Cybersecurity from a Christian Worldview

Track 3

Module 3.1
Introduction to Emerging Cybersecurity Technologies

Module 3.2
Cybersecurity for Industries

Module 3.3
Cybersecurity for Non-Profit Organizations

Track 4

Module 4.1
Ethical Hacking and Penetration Testing

Module 4.2
Capstone Project: Preparation and Implementation

Module 4.3
Capstone Project: Documentation and Presentation

techclass

Introduction to Cybersecurity

Immerse yourself in an enlightening exploration of digital safety. This training equips you with a foundational understanding of cybersecurity's essence, allowing you to craft strong passwords and spot phishing threats with ease. Embrace secure web browsing, protect your email interactions, and shield yourself from the snares of social engineering.

Moreover, your mobile devices get an armor of protection, and remote work becomes a breezy secure affair. By completion, you're not just aware but prepared to respond to security incidents effectively.

Video

Brochure

Main Training Areas

→ Digital Threat Landscape Mastery

→ Password Management and Protection

→ Recognizing and Countering Phishing

→ Safe Web Navigation Techniques

→ Email Integrity and Defense Tactics

→ Mobile Device and Remote Work Safeguards

techclass

Module 1.2 # Personal Cybersecurity Mastery for Online Safety

Discover a universe of digital safety with the "Personal Cybersecurity Mastery for Online Safety" training. This immersive guide covers every facet of online security, providing you with the tools and techniques to navigate the online realm securely. From email encryption to safe online shopping, from mobile device security to ethical digital behavior, we leave no stone unturned.

Accompanied by quizzes, simulations, and practical exercises, your learning journey is both informative and engaging. Experience the epitome of online safety training.

Video

Main Training Areas

→ Foundations of Cybersecurity Essentials

→ Secure Online Presence & Browsing

→ Advanced Email and Communication Safety

→ Mobile Device and App Security

→ Personal Data Protection & Privacy

→ Legal Dynamics & Digital Ethics

techclass

Christian Ethics in the Digital Age

Explore the intersection of faith and the digital world in our comprehensive online training on Christian Ethics in the Digital Age. This training provides an in-depth look at how the digital revolution has transformed society, and where Christian ethics fit into this new landscape. Delve into topics like digital citizenship, data security, and the role of the church in a digital society. Understand the ethical challenges posed by emerging technologies and how to navigate them with a Christian perspective.

This training is a valuable resource for anyone looking to understand and apply Christian ethics in the ever-evolving digital world.

Video

Brochure

Main Training Areas

→ Digital Revolution and Christian Response

→ Ethics of Online Privacy and Security

→ Christianity's Role in Digital Society

→ Navigating Digital Citizenship with Faith

→ Emerging Technologies: Ethical Perspectives

→ Building Ethical Digital Communities

techclass

Fundamentals of Network Security

With cyber threats evolving every day, understanding Network Security has never been more crucial. This training offers a robust curriculum spanning the basics of network protocols to the intricacies of cloud networking.

Whether you're a novice seeking foundational knowledge or a seasoned professional aiming to sharpen your skills, this training provides a comprehensive guide to the vast domain of network security, ensuring you're always a step ahead in the digital realm.

Video

Main Training Areas

→ Foundations of Secure Networking

→ Advanced Threat Mitigation Techniques

→ Cloud Networking and Data Protection

→ Incident Response and Digital Forensics

→ Emerging Tech and Future-Proofing Security

→ Career Development in Cyber Defense

techclass

Fundamentals of Mobile Security

Embark on a journey to mobile security mastery with our online training. Covering everything from the essentials of mobile device types and OS intricacies to advanced security threats and best practices, our training is your key to unlocking a safer mobile experience. Learn to navigate the complexities of app permissions, safeguard against sophisticated social engineering, and manage mobile device security with confidence.

Our content is not only informative but designed to translate complex security concepts into actionable knowledge. Equip yourself with the skills to protect mobile data and maintain privacy across all mobile fronts.

Video

Brochure

Main Training Areas

→ Mobile Device Fundamentals Mastery

→ Advanced Threat Defense Tactics

→ Proactive Incident Response Protocols

→ Comprehensive App Security Strategies

→ Secure Communication Encryption Essentials

→ Mobile Device Management Expertise

techclass

Cybersecurity from a Christian Worldview

Explore the ever-evolving landscape of cybersecurity through the lens of Christian values with our specialized training. Delve into core concepts of cybersecurity, and master the art of risk management. We bring a unique perspective by integrating Christian ethics with technology, offering insights into biblical principles relevant to modern challenges. Learn to protect information ethically, build secure digital environments, and make informed decisions in the face of legal dilemmas.

Our training equips you with the knowledge to not only defend against cyber threats but also uphold ethical standards in the digital age.

Brochure

Main Training Areas

➡ Foundations of Cybersecurity Ethics

➡ Faith-Informed Cybersecurity Practices

➡ Christian Perspectives on Cyber Threats

➡ Navigating Legal Cyber Landscape

➡ Ethical Data Protection Strategies

➡ Emerging Trends in Christian Cybersecurity

techclass

Introduction to Emerging Cybersecurity Technologies

Immerse yourself in the ever-evolving cybersecurity landscape with our specialized online training. Start with a solid foundation in cybersecurity essentials, rapidly advancing to the latest innovations. This training unlocks the mysteries of quantum computing and its implications on cybersecurity, while providing practical knowledge for securing the burgeoning world of IoT.

With this training, elevate your understanding of complex privacy technologies, delve into mobile security best practices, and decrypt the nuances of cryptocurrency. As 5G revolutionizes connectivity, you'll be equipped with the expertise to ensure security in this new age.

Video

Brochure

Main Training Areas

→ Cybersecurity Foundation Mastery

→ Cloud Security and Compliance

→ Artificial Intelligence Defense Strategies

→ Blockchain Security Solutions

→ Quantum Computing Safeguards

→ Internet of Things Protection

techclass

Cybersecurity for Industries

Secure your industry's future with our expertly crafted Cybersecurity training. Tailored to enlighten you on the myriad of threats facing diverse sectors, our curriculum begins with the fundamentals of Industrial Cybersecurity. From healthcare's sensitive data to the financial sector's complex compliance landscapes, we cover it all. Engage with real-world scenarios and proactive strategies to protect your critical systems and data.

Learn to build a culture of security that will stand as a bulwark against the ever-present cyber threats. Step into a world where Cybersecurity is your strongest ally.

Main Training Areas

➡ Digital Defense Fundamentals

➡ Sector-Specific Security Insights

➡ Operational Threat Management

➡ Regulatory Compliance Mastery

➡ Resilient Cyber Infrastructure

➡ Advanced Cyber Risk Strategies

techclass

Cybersecurity for Non-Profit Organizations

Discover the keystones of cyber fortification with our Cybersecurity for Non-Profit Organizations training. Crafted with precision, this training charts a course through the digital landscape's challenges, tailoring defense mechanisms to your non-profit's contours. Engage with content that transcends traditional cybersecurity education, fortifying your organization's operations, and community trust through cutting-edge data protection strategies.

By fostering an enlightened leadership and proactive cyber culture, we equip your non-profit to thrive in the internet age, vigilantly and confidently.

Ethical Hacking and Penetration Testing

Dive into the world of cyber guardianship with our premier Ethical Hacking and Penetration Testing training. Each chapter unfolds a new layer of expertise, from the legalities of hacking to hands-on access and control strategies. This training is tailored to provide you with an arsenal of skills, encompassing network fundamentals, malware analysis, and advanced web application tactics.

You'll learn to construct a secure lab environment, tackle real-time hacking simulations, and respond to incidents with precision. It's not just about the tools and techniques; it's about shaping the ethical hackers of tomorrow, ready to face the cybersecurity challenges of today.

Capstone Project

The Capstone Project, a cornerstone of this degree program, encompasses four pivotal stages: Preparation, Documentation, Implementation, and Presentation. It serves as an integral platform where students apply their accumulated knowledge in a real-world context. Starting with thorough planning in the Preparation stage, progressing to detailed recording in Documentation, and then moving to the practical execution in Implementation, the project culminates in a comprehensive Presentation.

This endeavor not only reflects the student's academic growth but also primes them for future professional challenges.

Capstone Project Tasks

➡ Preparation

➡ Documentation

➡ Implementation

➡ Presentation

techclass

Training Audiences

- **IT professionals** and **cybersecurity enthusiasts** seeking to deepen their understanding of cybersecurity with a unique integration of Christian ethics.

- **Students** and **recent graduates in computer science or related fields** looking to specialize in cybersecurity while exploring its ethical dimensions.

- **Career changers** or **upskillers** aiming to enter the cybersecurity industry with a strong foundation in both technical skills and ethical considerations.

- **Religious leaders** and **community educators** interested in understanding the intersection of technology, cybersecurity, and Christian ethics for broader societal impact.

Students Testimonials

Hear from our students that how TechClass transformed their learning experience and helped them achieve their goals.

Elina Sumén
Metropolia UAS
★★★★★

The training are easy to follow and covered a good amount of knowledge. I found the assignments very useful; it was great to use the knowledge in practice right away.

Vladimir Miskovic
Laurea UAS
★★★★★

TechClass is an intuitive, convenient and efficient online platform. It makes online learning easier and faster, especially when it comes to AI and programming.

Anna Kurmaeva
Laurea UAS
★★★★★

The platform is flexibile and allows to do assignments at my own pace. The information is very well structured and leads a student throughout the studies.

Csépke Csilla
Metropolia UAS
★★★★★

The training were awesome. I am studying software development in aiukuisopisto, and I think TechClass courses helped me a lot to get the study place.

Trustpilot EXCELLENT ★★★★★   Google Reviews 5.0 ★★★★★   facebook Reviews ★★★★★
