# Cybersecurity for Managers

The “Cybersecurity for Managers” training is designed to help leaders understand and lead cybersecurity efforts in their organizations. It covers information security and the important role of digital technology in business today. The training also looks at strategic topics like creating cybersecurity policies, managing risks, and building a security-aware culture in teams.

Cybersecurity for Managers training includes four distinct specializations: Warehouse Logistics, Forwarding Companies, Trade Industry, and Media Companies.

*Lead with confidence—enhance security strategies and responses.*

# Specializations

## 1. Warehouse Managers

## 2. Forwarding Company Managers

## 3. Trade Industry Managers

## 4. Media Company Managers

# Warehouse Managers

As warehouses adopt more digital technologies for managing inventory and supply chains, they face a growing range of cyber threats. This requires vigilant and proactive leadership to handle these risks. Our training is designed to provide leaders in the warehousing and logistics sector with advanced cybersecurity knowledge that is specifically tailored to their unique operational needs.

## Training Audiences

This training is designed for warehouse logistics managers responsible for their organization's information security and cybersecurity and any operational staff in this industry.

## Industry Projects

amazon

ebay

Walmart 

# Forwarding Company Managers

This training covers the basics of digitizing business operations and how this increases reliance on digital processes, which can expose forwarding companies to new risks. Participants will learn about common information security and cybersecurity risks in the forwarding industry and see how these risks appear in real-world situations.

## Training Audiences

This training is designed specifically for leaders in the forwarding sector, providing them with cybersecurity knowledge for their unique challenges and operational requirements.

## Industry Projects

# Trade Industry Managers

This training is specifically designed for leaders in the trade sector, providing them with targeted cybersecurity knowledge to effectively navigate and mitigate these risks. It focuses on equipping leaders with the skills needed to secure digital and physical trade channels against cyber threats, ensuring robust and resilient trade operations.

## Training Audiences

This training is designed for trade professionals responsible for their organization's information security and cybersecurity, and anyone interested in increasing their knowledge of these areas.

## Industry Projects

amazon

ebay

Walmart 

# Media Company Managers

This training focuses on equipping media organization leaders and cybersecurity professionals with the specialized knowledge required to protect against the specific threats that target media operations. Participants will learn about common cyber threats in the media sector, including unauthorized access to confidential content, digital piracy, and attacks on broadcast and digital distribution systems.

## Training Audiences

This training is designed for media sector professionals responsible for cybersecurity and is also suitable for others in the media sector looking to enhance their cybersecurity skills.

# Your Learning Journey

*Maximize Your Potential through  
TechClass Dynamic Learning*

## Self-paced Learning

Your Personalized Path to Success

## Blended Learning

Self-paced and practical workshops

## Expert Insights

Short Lessons, Big Impacts

# Training Support

## 01 Support Center

Our Support Center is here to help you succeed. Count on us to guide you through any challenges so you can focus on reaching your goals.

## 02 Discussions

Have questions or need help with training content? Simply start a discussion and get the support you need from your instructors or the community.

## 03 Q&A

Get the answers you need and expand your knowledge with our Q&A section. Get insightful responses from your instructors and peers.

## 04 Peer Review

Become a better learner with the power of peer review. You can submit your tasks and receive thoughtful feedback from your classmates.

# How to Proceed

1

INFORMATION  
SUBMISSION

Begin by submitting your information. This step is crucial as it sets the foundation for your educational journey.

2

DELIVER TO JOTPA FOR  
APPROVAL

Once your information is submitted, it is sent to JOTPA for approval. This ensures that all the participants are eligible.

3

ADDING  
INFORMATION TO  
OPINTOPOLKU

After JOTPA's approval, your enrollment information is integrated into 'Opintopolku' system.

4

RECEIVE ENROLLMENT  
INVITATIONS

Post integration, you will receive invitations to enroll in the trainings based on the information you provided.

5

STUDY AND COMPLETE  
ENROLLMENTS

This is where your active learning journey begins. Engage with your trainings, and complete your enrollments to progress further.

6

GET CERTIFICATE

Upon successful completion of your trainings, you will be awarded a certificate. This certificate is a testament to your dedication and mastery of the subject matter.

# TechClass LMS

*Designed to provide a dynamic, intuitive, and engaging learning experience. A learning environment to enjoy.*

## Personalized Learning

Tailored education that suits your unique needs.

## Simple

Ultimate learning solution, easy and intuitive.

## Community-first

Collaborative learning with peers and expert instructors.

## Anywhere, Anytime

Learn on your terms, from anywhere with internet access.

# Students Testimonials

*Hear from our students that how TechClass transformed their learning experience and helped them achieve their goals.*

**Elina Sumén**

Metropolia UAS

The training are easy to follow and covered a good amount of knowledge. I found the assignments very useful; it was great to use the knowledge in practice right away.

**Vladimir Miskovic**

Laurea UAS

TechClass is an intuitive, convenient and efficient online platform. It makes online learning easier and faster, especially when it comes to AI and programming.

**Anna Kurmaeva**

Laurea UAS

The platform is flexible and allows to do assignments at my own pace. The information is very well structured and leads a student throughout the studies.

**Csépke Csilla**

Metropolia UAS

The training were awesome. I am studying software development in aiukuisopisto, and I think TechClass courses helped me a lot to get the study place.

# Training Certificate

*Take your career to the next level with TechClass certification, and demonstrate your skills and knowledge to employers, clients, and peers.*

# TechClass Digital Academy

## Mission

Career growth through accessible and practical education.

# About the Company

At TechClass, we're passionate about fueling your journey to success by being the premier provider of cutting-edge online learning solutions. Our mission is to empower individuals and organizations to unleash their true potential, transforming lives in the process. Harnessing the power of innovative technology, ground-breaking research, and best educational practices, we're dedicated to revolutionizing the learning landscape and fostering a world where education is accessible, inclusive, and equitable for all. Join us on this exciting adventure and equip yourself with the knowledge and skills necessary to thrive in our rapidly evolving, interconnected world.

# TechClass & SECLE

The Service Center for Continuous Learning and Employment (SECLE / JOTPA) supports the development of skills of working-age people and the availability of skilled labor in society as a whole.

SECLE increases the opportunities for working-age people to develop their skills by financing training courses that are shorter than a degree and meet the needs of a changing working life.

SECLE operates as a separate organizational unit under the Finnish National Agency for Education.

SECLE has implemented a competition to acquire training related to the competence services related to information security, cyber security and the data economy.

Information provided from jotpa.fi website.
